

Our Marupa wood raises the bar on venetian blind lightness, longevity, and value for money. These blinds are reliable, highly functional, and decorative window treatments - fully adjustable to get the desired light ambience in a room.

- Very light - twice the width for the same weight as fauxwood blinds
- Better closure and light stopping with new stylish H-shaped bottom rail
- Extra heavy UV coating to look great for longer – best in the market

#### Great value for money - higher quality at lower cost

Marupa blinds have even greater attributes than our other venetians, yet at a significantly lower cost – by virtue of our new source in China.

#### Sound hardwood from environmentally-friendly sources

Marupa comes from sustainable plantations, unlike other timbers that are getting scarcer in quantity and quality. It's also more stable and doesn't warp as much as other woods and fauxwood.

#### Unique 90mm flat fascia design

Fitting in with contemporary home décor, this design completely covers the high profile head rail, giving a better finished appearance.

#### Set light and temperature for optimum comfort

By tilting of the slats, you can create the exact light ambience you want. In winter, the great insulation properties of wood mean heat is conserved when slats are closed. In summer, they can be opened to let the cool breeze through.

Setting these blinds to full-tilt blocks the light and creates total privacy at night. By pulling them right up, an unrestricted view is possible.

## Specifications

### Size

- Minimum width:
  - Tilt only: 264mm
  - Split controls: 300mm
  - Combined control: 400mm
- Maximum width: 3,000mm
- Drop limits: 200mm – 3,000mm
- Maximum area: 5.8m<sup>2</sup> (4m<sup>2</sup> if frequent raising and lowering)

### Components

- Slat width: 50mm
- Slat thickness: 3mm
- Valance (fascia): 90mm high x 5mm thick, flat design
- Head rail: standard high profile 57 x 51mm
- Bottom rail: 50 x 15mm, special 'H' shape
- Cords optionally on left or right as required
- Installation items included: brackets, screws
- UV protectorant: heavy-duty UV coating – best available in the market
- Product variation: being a natural product, minor variations may occur from item to item.

### Installation

- Easy to lift and angle, installed in minutes with easy-to-follow instructions

### Operation

- Separate cords for pull-up and tilting of slats
- Slats tiltable to 180 degrees - from clear unrestricted view to total blackout
- Easy quiet lifting with finer cord and brass locking roller (vs pin)

### Cleaning

- Remove dust from blinds with vacuum cleaner or compressed air
- Clean with damp cloth
- Do not scrub, or use solvents or any abrasive substance to avoid damaging slat coating

### Colour range

White

Off White

Porcelain

Mist

Honey

Walnut

Black

There is complete matching of valances, headbox, bottom rails, tassels, tapes, and cords for a perfectly integrated presentation.
